Forecast for Sunday 21 Jul 2024

Weather: Cloudy with patchy rain and drizzle in the east of the Park at first, but this quickly clearing to give a fine and dry morning with plenty of sunshine. Some fair weather cloud will develop with perhaps the odd afternoon shower developing. Feeling fresher than of late but still warm in the sunshine. Cloud thickening during the evening, with rain and drizzle towards midnight.

Chance of cloud-free hill tops above 600m: 30% at first, clearing from the west and rising to 90% with cloud lifting above summits during the morning. Deteriorating to 20% late in the evening.

Low cloud and visibility: Widespread cloud as low as 500m at first quickly clearing east, with scattered fair weather cloud bases 600-700m lifting above the summits by the afternoon. Moderate to poor visibility in cloud and drizzle at first becoming very good all-around with distant hills clearly visible. Visibilities falling late in the evening as widespread cloud with bases 400-600m developing towards midnight.
